RAILWAY INDUSTRY IN TURKEY

The following facts about the railway industry in Turkey make it one of the most attractive investment areas in the next decade....

- Until the year of 2023, 50 billion euros of investments will be made to transportation sector and 25 billion euros will be spared for the Turkish Rail Roads.
- Until 2023, Ministry of Transport is planning to build 7.000 km of fast tracks and 4.000 km of conventional tracks to be in service.
- The 2nd phase of Ankara- Istanbul Fast Track Line; which consist of Eskişehir- Istanbul fast-track and Ankara- Sivas fast track lines constructions are still in process.
- Uninterrupted railway transportation facility will come alive after the completion of construction of Marmaray Project between London and China.
- In order to expand the transfer to Block Train Transportation for freight and with such practice the freight potential were raised 58 % since 2002 and revenues provided by freight transportation has increased 170 %.

WHY EURASIA RAIL 2014?

The one and only organization in order to...

- Be a part of an international platform that brings together the government bodies with private sector related to railways.
- Find an exclusive chance to exhibit the new trends & designs for the rolling stocks, light rails, infrastructure technologies and railway logistics.
- Create an international environment to connect passenger & freight technology buyers and sellers under one roof.
- Build connections with new and existing partners.
- Catch an opportunity to invest in Turkish Railways projects.
- Be informed about railway and its technologies.
